

WOOD REIGN BLACK

G-60B & 70B - Incorporating double bias wraps of ultra high modulus, low resin content material in a back weighted design provides for a mid launching and spinning profile with more weight in the butt section to offset heavier heads and longer builds.

G-60T & 70T - Incorporating double bias wraps of ultra high modulus, low resin content material provides for a lower launching and spinning profile with more feel in the hands and a stiffer tip section.
